2016-17 SCHOOL DISTRICT PROPOSED BUDGET AND ACCOUNTING

Budget Reporting

Accounts used in school district budgeting and financial reporting are designated by the Department of Public Instruction (DPI). A uniform accounting system is important for the facilitation of reporting, auditing, data processing, inter-district comparisons, and financial accounting for cooperative programs.

Fund Accounting

Financial administration requires that each transaction be identified for administrative and accounting purposes. The first identification is by fund, which is an independent fiscal and accounting entity, requiring its own set of books, in accordance with special regulations, restrictions, and limitations that earmark each fund for a specific activity or for attaining certain objectives. Each fund must be so accounted for that the identity of its resources and obligations and its revenues and expenditures is continually maintained.

All funds used by Wisconsin school districts must be classified into one of nine fund types. The major fund types are the General Fund (10), Special Projects Fund (20), Debt Service Fund (30), Capital Projects Fund (40), Food Service Fund (50), Agency (Pupil Activity) Fund (60), Trust Fund (70), Community Service Fund (80), and Package and Cooperative Program Fund (90).

The following tables provide actual audited results for 2014-2015 school year, unaudited budget for 2015-2016, and proposed budget for 2016-2017.

General Fund (Fund 10)

The general fund is used to account for all financial transactions relating to current operations, except for those required to be accounted for in other funds.

Debt Service Fund (Fund 39)

Fund 39 Referendum Approved Debt Service Fund

This fund is used to account for transactions for the repayment of debt issues that were either authorized by school board resolution before August 12, 1993, or approved by referendum. If the district uses funds other than Fund 39, the district must combine and report these funds as Fund 39. A fund balance may exist in this fund.

Capital Expansion Fund (Fund 46)

Capital Expansion Funds are *included* in the calculation of the District's revenue limit. State statute restricts the use of this fund for capital expenditures related to buildings and sites. Equipment cannot be acquired through the use of this Fund. The Department of Instruction defines "capital expenditures related to buildings and sites" as being expenditures for acquiring and remodeling buildings and sites, and maintenance or repair expenditures that extend or enhance the service life of buildings and building components, sites and site components.

Food Service Fund (Fund 50)

All revenues and expenditures related to pupil and elderly food service activities are recorded in this fund. A fund balance in the Food Service Fund is permitted. There may be no deficit in the Food Service Fund. Any food service fund deficit, resulting from student food services, must be eliminated by an operating transfer from the General Fund. In order to comply with federal requirements of the Healthy Hunger-Free Act, the District increases food prices as directed.

Package & Cooperative Programs (Fund 90)

Fund 91 is used to account for expenditures made by a host district for programs made available to other districts through a CESA. The CESA makes the packaged service available to school districts. The participating districts, including the host district, will pay CESA for their share of the program. CESA payments to the host districts are the only revenue recorded in this sub-fund and must equal expenditures. The CESA applies for any program related aid and handles any required aid distribution. No fund balance or deficit can exist in this fund.

Fund 93 is used to account for consortia programs funded with grants and loans from the TEACH Wisconsin Board. There may be a fund balance or a deficit in this fund as permitted by the TEACH Board.

Fund 99 Other Package and Cooperative Program Funds are to be used for all other types of cooperative instructional funds. No fund balance or deficit can exist in this fund.

TAX LEVY EXPLANATION

The school district tax levy is made up of several components. These include: Amount of operational dollars needed-General Fund, Capital Projects, Community Service; Amount of debt service tax dollars needed-Debt Service Fund levy; Equalized value of property in the school district; Mill (tax) rate.

The tax levy is the total amount of property taxes levied or assessed to municipalities in our school district to fund school operations. The maximum tax levy amount, other than referendum-approved long-term debt or long-term debt incurred prior to 1993, is determined through the state's revenue cap (limit) formula. Taxpayer approval, through the referendum process, is required if a school district wants to exceed the revenue limit. The tax levy approved at the Annual Meeting will be adjusted by the Board of Education in October when student enrollment has been determined (September 3rd Friday count), the Department of Public Instruction (DPI) has certified the district's state equalization aid amount for the 2016-2017 fiscal year which is received in October, district adjustments, when the state voucher program expenses are calculated by the DPI in October, Transfer of Service, and Property Values.

Equalized valuation is the fair market value of all properties within a school district as determined by the Wisconsin Department of Revenue. The Wisconsin Department of Revenue uses property sales information to determine a municipality's equalized "fair market" valuation. This information is reported to the school district in October of each year.

The school district distributes the certified (approved) tax levy among the municipalities according to the proportion of equalized value each municipality has in comparison to the total equalized value of the school district. Each municipal treasurer distributes this levy among the various residents based on the assessed value of the property within the municipality. Equalized valuation plays a very important role in determining the school mill (tax) rate. For purposes of budget projections, the school district must estimate the equalized value. In October, the actual certified equalized values of all municipalities within the school district are reported by the Department of Revenue. The district then calculates the actual mill (tax) rate per thousand dollars of equalized valuation.

To calculate the school mill (tax) rate, the district uses the tax levy certified (approved) by the School Board in October and divides that amount by the total equalized value of the school district. The mill rate is defined as the rate one thousand dollars of equalized valuation will raise in property taxes. Property owners in a municipality having more than one school district, fire district, or other governmental entity may find that mill rates vary within the municipality. Property owners may realize different changes (typically increases) in their property assessments depending upon conditions within their community and surrounding communities.

The Board is proposing a total tax levy of \$11,131,271 to fund the 2016-2017 budget. To determine the rate per thousand, the district divides \$11,131,271 by the estimated equalized value of the district. This produces a projected mill (tax) rate of \$9.40. This rate is a decrease from the 2015-2016 mill rate of \$9.98. Since the district does not receive the official (certified) equalized valuation until October 15, 2016, the property taxpayer in the Portage Community School District may realize a change in the estimated 2016-2017 mill rate. For example, if the tax levy remains the same as approved, but the total equalized valuation decreases from the estimate used, the mill rate would increase. If the total equalized valuation increases from the estimate used, the mill rate would decrease. The Board is required to make any adjustments, if needed, to the levy on or before November 1, 2016. The final determination of state aid, student enrollment, district adjustment, and transfer of service will also modify the estimated mill rate.
