The Board of Education shall assess tuition for attendance in District schools by students who are not entitled to receive a free, public education in this District and whose enrollment has been approved by the District Administrator.

Tuition rates shall be determined in accordance with 121.83. Rates shall represent the cost per student membership within the limits established by law. Charges shall be the maximum permitted by law.

CHECKS WITH INSUFFICIENT FUNDS

When the district receives a check, that when deposited, is returned marked “insufficient funds”, the district shall provide an opportunity for the payer to make proper payment or to arrange for a satisfactory payment schedule for the check amount and any fees charged to the district. If payment is not received within 30 days, the payment schedule is not adhered to, or the monies do not appear to be collected, the Board authorizes the business office to remove the fee or charge from the district’s accounts receivable and to take appropriate action against the check issuer.

PURCHASING

It is the policy of the Board of Education that its agents make all purchases of equipment, materials and services with the desired quality on the basis of the least cost when practical. Bids or quotations (minimum of 2) are required for all items (or group of items) which exceed \$15,000 in cost, except in cases of emergency or when the material purchased are of such a nature that price negotiations would not result in a savings to the District.

The Board does not require bids or quotations for the following areas:

1. Educational items such as textbooks and workbooks or educational items where particular features are advantageous to the program.
2. Professional services such as attorneys, architects, and auditors.
3. Replacement parts or maintenance contracts for existing equipment or mechanical systems.
4. CESA services used by the District.
5. Other services, equipment or supplies that agents of the Board feel are not appropriate to receive bids or quotations.

It is the intention of the Board that all qualified suppliers have an opportunity to bid or quote to the school district. If purchase factors are relatively equal the Board will purchase from agents, vendors and manufacturers residing in the school district or surrounding area. If practical and economically prudent, local vendors and manufacturers will have the opportunity to provide services or goods to the school district.

Agents of the Board who make purchase determinations should keep records of quotations to verify purchase decisions that are primarily based on price.

The Board may acquire office equipment by lease, installment payments, lease-purchase agreements, or by lease with an option to purchase, provided the contract sets forth the specific terms, including price, of such purchase.

9. No invoice will be honored for payment unless it has a purchase order number or an alternative procedure has been pre-approved by the principal or supervisor. In an emergency, a purchase order number may be secured by calling the Business Office, i.e. if a salesperson is in the office and you wish to make a purchase, call for a purchase order number and have it put on order immediately. Prior approval of the principal or supervisor is required before phoning for a purchase order number.

10. Local vendor credit cards: These cards are available for checkout from your building's Office Assistant. These purchases are normally under \$100.00 and require the purchaser to give their school phone extension as the Purchase Order number when checking out at the register. The credit card is then returned and the employee enters the purchase into the system for the approval process to complete the transaction.

11. Expense account sheets, bills and invoices to be paid, must be in the Business Office by the first of the month if they are to be paid at the board meeting for that month.

USE OF CREDIT CARDS FOR PURCHASES

The Board recognizes the value of an efficient method of payment and record-keeping for certain expenses. The Board, therefore, authorizes the use of District credit cards.

Credits cards shall not be used to circumvent the general purchasing procedures established by the Board policy. The Board affirms that credit cards shall only be used in connection with Board-approved or school-related activities and that only those types of expenses that are for the benefit of the District and serve a valid and proper public purpose shall be paid for by credit card. Under no circumstances shall credit cards be used for personal purchases or the purchase of alcoholic beverages regardless of whether the purchase of beverages is made in connection with a meal.

Inappropriate or illegal use of the credit card and/or failure to strictly comply with the limitations and requirements set forth in the administrative guidelines may result in a loss of credit card privileges, disciplinary action, up to and including termination, personal responsibility for any and all inappropriate charges, including finance charges and interest assessed in connection with the purchase, and/or possible referral to law enforcement authorities for prosecution.

USE OF ELECTRONIC WIRELESS COMMUNICATION DEVICES
BY DISTRICT EMPLOYEES WHO OPERATE
DISTRICT-OWNED OR OPERATED VEHICLES

Personal communication devices ("PCDs"), including PCDs equipped with ear pieces, ear buds, headsets, and/or Bluetooth, shall **not** be used anytime the operator is actively driving a Board-owned vehicle during the course of employment, with or without students on board.

For purposes of this policy, electronic PCDs include, but are not limited to, cellular and wireless telephones, pagers/beepers, personal digital assistants (PDAs), Smartphones, any text-messaging device, and other WI-FI-enabled or broadband access devices, including computers.

If the operator's responsibility for the safety and health of the those in the vehicle find it necessary for the driver to use a PCD, the operator will depart the roadway, stop in a safe area, and then use the PCD. Before using the PCD, the school vehicle operator must move the vehicle outside all lanes of travel and ensure that the vehicle is in a stationary position by placing the vehicle's transmission in park, or turning off the vehicle's engine, and setting the emergency brake.

Safety is always the priority while driving a school vehicle in the course of employment. Any deviation to the above policy will result in disciplinary action as set forth in Board policy, including termination from employment.

SYSTEM OF ACCOUNTING

As specified by the Department of Public Instruction, the Board of Education follows the Wisconsin Uniform Financial Accounting Requirements (WUFAR) as a listing of account classifications by which it keeps an accounting of all District funds. The District's system of accounting shall comply with all requirements of the Governmental Accounting Standards Board, Statement No. 54 (GASB 54). In accordance with GASB 54, the District will report its fund balances in the following categories:

- A. Nonspendable fund balance - amounts that cannot be spent because they are either (a) not in a spendable form (which includes items that are not expected to be converted to cash – e.g., inventories or prepaid amounts) or (b) legally or contractually required to be maintained intact (e.g., the corpus of an endowment fund).
- B. Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- C. Committed fund balance - amounts constrained to specific purposes by the Board; to be reported as committed, amounts cannot be used for any other purpose unless the Board takes action to remove or change the constraint.
- D. Assigned fund balance - amounts the Board *intends* to use for a specific purpose but are neither restricted nor committed; intent can be expressed by the Board or by an official or committee to which the Board delegates the authority.
- E. Unassigned fund balance - amounts that are available for any purpose; these amounts are reported only in the general fund.

The Business Manager shall maintain a proper accounting of all District funds. S/He shall ensure that expenditures are budgeted under and charged against those accounts that most accurately describe the purpose for which such monies are to be or have been spent.

The Business Manager will annually have the District's financial affairs audited and approval by the Board, after the close of the fiscal year (June 30th). The audit will be of completed by an independent

FRAUD

The Board of Education is committed to protecting the financial assets of the District. Fraudulent behavior by School District employees, any contracted entity, or other individual will not be tolerated.

Fraudulent behavior includes, but is not limited to, theft, embezzlement, lying or providing false information to obtain a material benefit, including falsification of employee time records or other manipulation of time records to obtain compensation for time not worked, purchasing property for personal use with School District funds, and inappropriate personal use of School District property.

All employees have an obligation to report fraud to their supervisor or directly to the District Administrator. The failure to report known fraudulent actions or actions that reasonably appear to be fraudulent may be grounds for discipline.

The District Administrator, in cooperation with the auditors and District staff, will provide appropriate internal controls to diminish the opportunities for theft, embezzlement, and other fraudulent acts by employees.

All allegations of fraud will be investigated by appropriate District staff and will be reported to law enforcement if or when there is reason to believe a criminal offense has been committed.
