

SECTION 564 FOREIGN EXCHANGE STUDENTS

The Portage Community School District encourages participation with civic or community organizations which plan and execute programs of student exchange between foreign countries and the district. The district welcomes exchange students because of the learning experiences associated with students from other nations and cultures. An organization planning a student exchange program must receive annual approval for the program at least four months prior to the time the school will be asked to consider admission of a student.

No more than a total of two (2) foreign exchange students may be enrolled in Portage High School tuition-free by all participating organizations. Priority for available placements will be given to organizations with longstanding commitment for placing students in Portage.
