Counseling Department

Dear PHS Students,

Welcome back from Spring Break! The counseling office is still supporting students as we continue the school semester. However, we will begin a new digital method of doing business and providing support. The following services will continue to be available to our students:

- Career: transcript requests, college applications, scholarships, letters of recommendation, youth apprenticeship
- Academic: current classes, ACT and AP testing, schedule for next year
- Personal/Social: school lunch or internet service, other questions you may have - feel free to contact us!

Due to the building closure, the phone will no longer be manned in the HS counseling office. Instead you can reach members of the department by email during their specified work hours. Counselors can also connect with students individually by telephone or video conferencing.

(GOOGLE VOICE allows us to connect via our computers and/or other devices. For example, Mrs. Gilman's number will show up as coming from San Diego, CA. You may call us directly at these numbers.)
