

Endeavor Elementary School-Wide Positive Behavior Plan

Endeavor Elementary is a place where students, staff, and families feel welcomed, valued, and connected to our school. A school-wide behavior plan has been implemented to provide each student with positive educational experiences.

Our Beliefs

- We believe in the importance of developing relationships with students.
- We believe students and staff should show respect for themselves, others, and the school.
- We believe students and staff must have a safe learning environment.
- We believe students and staff must set high expectations and be held accountable.
- We believe appropriate behavior must be clearly defined and modeled.
- We believe that discipline should be consistent and appropriate for the infraction.

Above the Line Positive Behavior Management System

Steps have been taken to promote a positive learning environment. These include creating healthy relationships, reinforcing positive behaviors, and fostering a sense of community.

We use the *Above the Line* Behavior Management System, which includes a common language for students and staff to use. We also provide opportunities for students to fix the problems they create.

For serious “bottom-line” behaviors that make Endeavor Elementary unsafe, consequences will be determined and fix-it plans created.
