Careers in Government & Public Administration

Federal, state and local governments are among the nation's largest employers. Solid career opportunities exist in almost every major occupation but due to the analytical and technical nature of many government duties, the need is greatest for those with education and experience in professional, management, business and financial fields.

While associate degrees in health care, criminal justice, business and office support can launch a solid career in government, some careers require a bachelor's degree or beyond. Our Liberal Arts Transfer program provides a solid foundation for a career in government including those jobs listed below.

Liberal Arts Transfer

- * Accountants and Auditors
- * Civil engineers and technicians
- * Compliance officers
- * Computer specialists
- * Counselors and social workers
- * Court, municipal, and license clerks
- * General and operations managers
- * Health technologists and technicians
- * Human resources, training, and labor relations specialists
- * Judges, magistrate judges, and magistrates
- * Lawyers
- * Legal support workers
- * Legislators
- * Librarians and library technicians
- * Management, business, and financial occupations
- * Nursing, psychiatric, and home health aides
- * Office and administrative support occupations
- * Probation officers and correctional treatment specialists
- * Professional and related occupations
- * Tax examiners, collectors, and revenue agents
- * Urban and regional planners
- * Registered nurses
- * Social and human service assistants
- * Service occupations
