Creating a Menu

Your next project will be to create a menu for a restaurant using MS Word or MS Publisher. It must be a brand new restaurant...meaning it currently does not exist. Be creative! You must develop the menu and all items on your own...meaning don't copy and paste from the internet. Your menu will not contain alcoholic beverages; these are listed on a separate menu which will not be created in this class.

Menu must include:

- ✓ Front cover
- ✓ Food items
- ✓ Food descriptions
- ✓ Prices
- ✓ Dot leaders between the item and price.
- ✓ COLOR!!
- ✓ Creativity!!

Use **FULL** sheets of paper for each page of your menu. We'll laminate them together to form a "real" menu. If you get really energetic you may also key a two sided insert page for your menu (extra points may be negotiated).

Back	Front

Inside Left	Inside Right

Optional Insert:

Insert Side A

Insert Side B
